Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"More goodness can achieve little against the power of nature."  
 -- Georg Wilhelm Friedrich Hegel

From the crown of his head to the sole of his foot he is all mirth: he has  
 twice or thrice cut Cupid's bowstring, and the little hangman dare not shoot  
 at him: he hath a heart as sound as a bell, and his tongue is the clapper: for  
 what his heart thinks his tongue speaks.  
 -- Shakespeare

When a man says, "Get thee behind me, Satan," he's probably assumed to have even the devil see what he's up to.

Whatever you want to do, you have to do something else first.  
-- Ari Kosutka

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
