Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*I have learned this at least by my experiment: that if one advances
 confidently in the direction of his dreams, and endeavors to live the life
 which he has imagined, he will meet with a success unexpected in common
 hours.*
 -- Henry David Thoreau

13	16	17	57	58	59	75	76	12

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
