Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Honor is not the exclusive property of any political party."  
 -- Herbert Hoover

*Authority intoxicates, And makes mere sots of magistrates. The fumes of it  
 invade the brain, And make men giddy, proud and vain: By this the fool  
 commands the wise. The noble with the base complies. The sot assumes the rule  
 of wit, And cowards make the base submit.  
 -- Butler*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
