Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Authority intoxicates. And makes mere sons of magistrates. The fumes of it invade the brain, and make men speak proud and true. By this the fool commands the wise of wit. And cowards make the base submit.  
 -- Butler

"A photograph is a secret about a secret. The more it tells you the less you know."  
 -- Diane Arbus

80	70	71	26	45	55	8	46	63
64	60	47	31	48	36	49	50	61

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
