Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

A great source of error is the judging of events by abstract calculations, which though geometrical, are applied as they relate to the concerns of beings governed more by passions than by an enlightened sense of justice.
 -- Alexander Hamilton

Age: That period of life in which we compound for the vices that we still cherish by resisting those that we no longer have the enterprise to commit.
 -- Ambrose Bierce

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
