Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Beware of self-styled experts: an ex is a has-been, and a spurt is a drip under pressure.

"The cultured man is an artist, an artist in humanity."
--Ashley Montagu

Politicians should read science fiction, not westerns
-- Arthur C Clarke

My religion consists of a humble admiration of the illimitable superior
spirit who reveals himself in the slight details we are able to perceive
with our feeble mind.
-- Albert Einstein

The Yeti, whom we know of only by the tracks he leaves behind, hunts the mountains, sad and lonely, for a mate to breed his kind.

Lonely is a man without love.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
