Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Filmmaking can be a fine art."  
 -- Terry Windling

Jones's First Law:  
 Anyone who makes a significant contribution to any field of endeavor,  
 and stays in that field long enough, becomes an obstruction to its  
 progress -- in direct proportion to the importance of their original  
 contribution.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
