Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Albert Einstein, when asked to describe radio replied: "You see, wire telegraph is like of a very, very big cat. You pull his tail in New York and his head in London. Do you understand his? And radio operates exactly the same way: you send signals here, they receive them there. The only difference is that there is no cat."

"Fine art is that in which the hand, the head, and the heart of man go together."
-- John Ruskin
