Exploit the inevitable (which means, take credit for anything good which happens whether you had anything to do with it or not).

If it tastes good, you can't have it. If it tastes awful, you'd better clean your plate.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
