Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*Real joy comes not from ease or riches or from the praise of men, but from doing something worthwhile.
--Sir Wilfrid Grenfell*

If it tastes good, you can't have it. If it tastes awful, you'd better clean your plate.

Who purposely cheats his friend, would cheat his God.
-- Lavater

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
