Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Wit is the salt of conversation, not the food."
 --William Hazlitt

Laughter should dimple the cheek, not furrow the brow. A jest should be such, that all shall be able to join in the laugh which it occasions; but if it bear hard upon one of the company, like the crack of a string, it makes a stop in the music.
 --Fethallah

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
