Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

This famine has a sharp and meagre face: 'Tis death in an address of skin
 and bone. Where age and youth, their landmark ta'en away, Look all one common
 - Dryden

Success is the result of behavior that completely contradicts the usual expectations about the behavior of a successful person. -- Felix K. Fahnst

If some stress is brought to bear on a system in equilibrium, the equilibrium is displaced in the direction which tends to undo the effect of the stress.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
