Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*A limerick packs laughs anatomical
into space that is quite economical.
But if you miss even one letter
So seldom are clean
And the clean ones so seldom are comical.*

*Deadlock's Law: If the lawmakers make a compromise, the place where it will
be felt the most is the taxpayer's pocket.*

... and living was just a way of passing time until he died.
-- Haruki Murakami

Nasrudin walked into a shop one day, and the owner came forward to serve him. Nasrudin said, "I've just finished a long journey, and I'm very tired. Please give me a drink." The owner said, "I'm sorry, but I don't have any drinks left. I've just finished a long journey, and I'm very tired. Please give me a drink." The owner said, "I'm sorry, but I don't have any drinks left. I've just finished a long journey, and I'm very tired. Please give me a drink."

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
