Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*If you've already donated, thank you so much!  
My family and I really appreciate your support.*

... and living was just a way of passing time until he died.  
-- Hamish Sankov

Nasrudin walked into a shop one day, and the owner came forward to serve him. Nasrudin said, "First things first. Did you see me walk into your shop?" "Of course." "Have you ever seen me before?" "Never." "Then how do you know it was me?"

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
