Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Her face was like an April morn,
Clad in a wintry cloud; And clay-cold was
her thy hand, That held her sable shroud.
--Mallet

The number of errors made is equal to the sum of the "squares" involved.

Try to value useful qualities in one who loves you.

Talent, lying in the understanding, is often inherent; genius, being the action of reason and imagination, rarely or never.
-- Coleridge

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
