Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Space is big. You just won't believe how vastly, hugely, mind-
 boggingly big it really is. I mean, you may think it's a long way down the
 road to "The Hitchhiker's Guide to the Galaxy."
 ...

"Art is not what you see, but what you make others see."
 -- Edgar Degas

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. The numbers in the squares are in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
