Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Writing is not hard. Just get paper and pencil, sit down and write it as it occurs to you. The writing is easy -- it's the occurring that's hard.
 -- Stephen Leacock

"Just because nobody complains doesn't mean all paracletes are perfect."
 -- Benny Hill

The only possible interpretation of any research whatever in the social sciences is: some do, some don't.
-- Ernest Rutherford

Forgiveness is better than revenge, for forgiveness is the sign of a gentle nature, but revenge is the sign of a savage nature.
-- Epictetus

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
