Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"The good man is the friend of all living things."  
 --Montaigne's Candide

Confusion (entropy) is always increasing in society. Only if someone or something works extremely hard can his confusion be reduced in order in a limited region. No one can fill out the total confusion of society at large.  
 --Dr. W. L. Everitt

76	77	48	45	31	28	24	51	52

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. The numbers in the squares are in order 1-23 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
