Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

For perfect happiness, remember two things:
1. Be content with what you've got.
2. Be sure you've got plenty.

History is curious stuff.
You'd think by now we had enough.
Yet the fact remains I fear
They make more of it every year.

3	54	52	36	29	26	21	19	4
1	39	40	30	24	27	42	43	2

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
