Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Free enterprise: A huge area of the American economy is still noticeable to observers with peripheral vision of the city, subtract the public sector, conglomerates, federally supported agriculture, monopolies, diatropics, and oligopolies.
-- Bernard Rosenberg

A hypothetical paradox:
What would happen in a battle between an elite private security team, who always get killed sooner than they can get a word in edgewise, and a squad of Imperial Stormtroopers, who can't fit the broad side of a planet?
-- Tom Galloway
