Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Critics are a kind of freebooters in the republic of letters -- who, like deer, goats, and divers other graminivorous animals, gain subsistence by gorging upon buds and leaves of the young shrubs of the forest, thereby robbing them of their verdure, and retarding their progress to maturity.
-- Washington Irving

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
