Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Without the oceans there would be no life on Earth."
 -- Peter Benchley

You'd better beg it. You can leave in a taxi. If you can't get a taxi, you
 can leave in a hijf. If that's too soon, you can leave in a minute and a hijf.
 -- Groucho Marx

Authors (and perhaps columnists) eventually rise to the top of whatever
 depths they set one's eye to plumb.
 --Stanley Kalphum

If your doing something the same way you have been doing it for ten years,
 the chances are you are doing it wrong.
 --Charles Keeler

10	11	26	20	1	21	8	6	7

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
