Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"The good Christian should beware of mathematicians and all those who  
 make empty prophecies. The danger already exists that mathematicians  
 have made a covenant with the devil to darken the spirit and confine  
 man in the bonds of Hell."  
 -- St. Augustine

"The best way to pay for a lovely moment is to enjoy it."  
 -- Richard Bach

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
