Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Slick's Three Laws of the Universe:
 1. Nothing in the known universe travels faster than a bad check.
 2. A quarter-ounce of chocolate = four pounds of fat.
 3. There are two types of dirt: the dark kind, which is attracted to light objects, and the light kind, which is attracted to dark objects.

Living your life is a task so difficult, it has never been attempted before.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
