Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*If you've already donated, thank you so much!
My family and I really appreciate your support.*

*The reasonable man adapts himself to the world; the unreasonable one
persists in trying to adapt the world to himself. Therefore all
progress depends on the unreasonable man.
—George Bernard Shaw*

*I see the eigenvalue in thine eye,
I hear the hyperbolic in thy sigh,
Beneath the hyperbolic ocean, to my sigh,
Had he but known such "separated" cos 2(phi).
--Stanislaw Lem, "Cyberiad"*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1-23 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
