Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Worst Month of the Year:  
 February has only 28 days in it, which means that if  
 you rent an apartment, you are paying for three full days you  
 don't get. Try to avoid February's whenever possible.  
 -- Steve Rubenstein

No Negro American can be free until the lowest Negro in Mississippi is no  
 longer disadvantaged because of his race.  
 -- Ralph Bunche

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
