Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*O: How many surrealists does it take to change a light bulb?  
A: Two. One to hold the globe and the other to fill the bulb  
with brightly colored machine tools.*

*Inventing is easy for stuff outfits. Starting a problem is much harder.  
Instead of starting problems, people like to pass out half-accrual statements  
together with half-avoidable sums for they can't finish and which they
