Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*... that peculiar disease of intellectuals, that infatuation with ideas at the expense of experience that compels experience to conform to bookish preconceptions.*

*Surely there is something in the unruffled calm of nature that overcomes our little anxieties and doubts: The sight of the deep-blue sky, and the clustering stars above, seems to impart a quiet to the mind.*  
-- Edwards

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
