Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

There is no possible line of conduct which has not at some time and place been condemned, and which at some other time and place been enjoyed as a duty.
-- William Lecky

Every man who is high up loves to think that he has done it all himself; and the wife smiles and lets it go at that.
-- James Matthew Barrie

The phrase "we'll go, simply MUST ..." designates something that need not be done. "That goes without saying" is a red warning. "Of course" means you had best check it yourself. These small-change clues and others like them, when read correctly, are reliable channel markers.
 -- Lazarus Long

Anyone can hold the helm when the sea is calm.
 -- Publilius Syrus

Never suffer an exception to occur till the new habit is securely rooted in your life. Each lapse is like the letting fall of a ball of string which one is carefully winding up; a single slip undoes more than a great many turns.
 -- William James

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
