Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

If you can keep your head when all about you others are losing theirs, maybe you just don't understand the situation.

It is the pleasure of reward rather than the pain of punishment that motivates people.

Music hath charms to soothe a savage breast, To soften rocks, or bend a knotted oak. I've read that things inanimate have moved, And as with living souls have been inform'd. By magic numbers and persuasive sound.
-- Congreve

Customs tell a man who he is, where he belongs, what he must do. Better illogical customs than none: men cannot live together without them ...
-- Dr. Margaret Mader

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
