Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"I decided to start ones, to strip away what I had been taught."

-- Georgia O'Keefe

Happiness is having friends who laugh at your stories when they're not so funny and sympathize with you in your troubles even when they're not so bad.

Compliments of congratulations are always kindly taken, and cost nothing but pen, ink, and paper. I consider them as draughts upon good breeding, where the exchange is always greatly in favor of the drawer.
 -- Chesterfield

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
