Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Creativity takes courage."  
--Henri Matisse

When you are about to do an objective and scientific piece of investigation of a topic, it is vital to give the answer firmly in hand, so that you can proceed forthrightly, without being deflected or swayed, directly to the end.  
--Antoni Kutz

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the order of the squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
