Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*If you've already donated, thank you so much!
My family and I really appreciate your support.*

"To make pictures big is to make them more powerful."
 -- Robert Mapplethorpe

In the beginning was the word,
 but by the time the second word was added to it,
 there was trouble.
 For with it came syntax...
 -- John Simon

The sterile radical is basically ... conservative. He is afraid to let go
 of the ideas and beliefs he picked up in his youth lest his life be seen as
 empty and wasted.
 -- Eric Hoffer

Despots govern by terror. They know that he who fears God fears nothing else; and, therefore, they eradicate from the mind, through their Voltaire, the Helotius, and the rest of that infamous gang, that only sort of fear that generates true courage.
 -- Burke

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
