Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Art requires philosophy; just as philosophy requires art. Otherwise, what would become of beauty?"
-- Paul Gauguin

*First Law of Procrastination:
 Procrastination shortens the job and places the responsibility for its
 termination on someone else (i.e., the authority who imposed the deadline).*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
