Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Americans have always attached particular value to the word "neighbor."
 While the spirit of neighborliness was important on the frontier because
 neighbors were so few, it is even more important now because our neighbors are
 so many.
 -- Lady Bird Johnson

*Mere longevity is a good thing for those who watch Life from the side lines.
 For those who play the game, an hour may be a year, a single day's work an
 achievement for eternity.
 -- Gabriel Heatter*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
