Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

The structure of the joke is ... the juxtaposition of the trivial and the mundane ... We have to reconcile the paradox of it all. The joke mirrors the paradox.
-- Woody Allen

68	61	10	80	26	81	69	45	39
70	62	11	71	72	73	74	21	18

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
