Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"A man is only as good as what he loves."
-- Saul Bellow

On beginning play, as many balls as may be required to obtain a satisfactory result may be played from the first tee. Everyone recognizes a good player needs to "loosen up" but does not have time for the practice tee.
-- Donald A. Metz

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
