Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Inventing is easy for stuff outfits. Starting a problem is much harder.
 Instead of starting problems, people like to ask out half-accrual questions
 together with half-avoidable sums for they can't finish and which they
 want soon to finish.
 --Annon Katz

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the order listed until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
