Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

When voting on appropriations bills, more is not necessarily better. It is as wasteful to have a \$41 billion increase in the budget as it is to have a welfare program for every person in the form of deprivation.
— Pierre S. du Pont

H: If a GOBLIN (HOB) waylows you,
Slice him up before he stops you.
Nothing makes you look a GOB.
Like running from a HOB? IN (GOB).
— The Roguelet's ABC

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
