Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Be not diverted from your duty by any idle reflections the silly world may
 make upon you, for their concerns are not in your power, and consequently
 should not be of your concern.
 -- Epictetus

In any given group, the most will do the least and the least the most.
 -- Merte F. Martin

74	75	64	65	12	3	4	76	13

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
