Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

I'd love to go out with you, but I have to stay home and see if I snore.

There shall be no such thing as a lost ball. The missing ball is on or near the course somewhere and equally it will be found and returned by someone else. It thus becomes a stolen ball and the player should not compound the felony by charging himself with a penalty stroke.
—Donald A. Metz

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
