A		F	
B		G	
C		H	
D		I	
E		J	

Krypto Kakuro puzzles are a cross between a crossword, a sudoku and a cryptogram.

Each digit has been substituted with a letter. To solve the puzzle, you must figure out what digit each letter stands for, and then solve it like a regular kakuro puzzle.

Each "word" in the crossword contains only the digits 1 thru 9, and the same digit will never repeat within a word. The sum of the digits of each word are shown on the left and right sides of "across" words, and at the tops and bottoms of "down" words.
