Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

"Abstract art is a product of the untalented, sold by the unprincipled to the utterly bewildered."  
-- Al Capp

*We lie about the truth, that's what ruins us here. And do you know why we lie about the truth? Not because we like to, but because we are scared to death of it. If we looked the truth in the eye nine out of ten of us would run to the graveyard and demand to be buried at once.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
