Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Sudoku #2

Anyone entrusted with power will abuse it if not also animated with the love
 of truth and virtue, no matter whether he be a prince, or one of the
 people.
 -- Jean de la Fontaine

Why You Can't Run When There's Trouble in the Office: No matter where you stand, no matter how far or fast you flee, when it hits the fan, as much as possible will be propelled in your direction, and almost none will be returned to the source.
 -- John L. Shelton

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
