Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

A man has no more right to say an uncivil thing, than to act one; no more
 right to say a rude thing to another, than to knock him down.
 -- Johnson

*The correct way to punctuate a sentence that starts: "Of course it is none of my business but..." is to place a period after the word "but." Don't use excessive force in supplying such mojon with a period. Cutting his throat is only a momentary pleasure and is bound to get you talked about.
-- Lazarus Long*

45	39		30	31		1	46	16

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
