As the language of the face is universal, so 'tis very comprehensive; no  
 idiosyncrasy can reach it: 'tis the short hand of the mind, and crowns a great  
 deal in a little time.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
