Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Wait to help me replace my broken pencil sharpener?

The only really good place to buy lumber is at a store where the lumber
 has already been cut and attached together in the form of furniture,
 finished, and put inside boxes.
 -- Dave Barry, "The Laming of the Screw"

	33	51	34	35	36		37	
26	38	39	40	41		42	43	6
			5		8	10	9	

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
