Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

"He wants you all to Himself to put His loving, divine arms around you."  
 -- Charles Stanley

*And oftentimes, excusing of a fault,  
 Doth make a fault the worse by the  
 excuse; As patches set upon a little breach,  
 Discredit more in hiding of the  
 fault, Than did the fault before it was so patch'd.  
 -- Shakespeare*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
