Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

*If you've already donated, thank you so much!
My family and I really appreciate your support.*

If you lose your temper at a newspaper columnist, he'll get rich or famous
 or both.
 -- James C. Hagerry,

We see the opening of an era: it is an era of seeking beyond the confines of
 our atmosphere; may it be also an era of awakening to the countries of
 the East.
 -- Bertrand De Jouvenel

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
