Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

"Falling out of love is chiefly a matter of forgetting how charming someone is."
 -- Iris Murdoch

			8					
	9		6				8	

Always pray that your opposition be wicked. In wickedness, there is a strong strain toward rationality. Therefore, there is always the possibility, in theory, of handling the wicked by outthinking them.
 -- Martin J. Levy, Jr.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
